Date printed:05/10/2001

Date of Revision: N/A

1 Identification of the preparation and company

Product Name: Meguiar's Car Cleaner Wax - Liquid
Product code: A12

Seller:

Manufacturer:
Meguiar's Inc.
17991 Mitchell South
Irvine
California 92714
USA
Tel: +01-949-752-8000
Fax: +01-949-752-5784

2 Composition/information on ingredients

Contains:
Hydrotreated heavy petroleum distillate, CAS # 64742-48-9, (Xn – R65) – 10 to 15%.
-Supplier's recommended exposure limit 300 ppm.
Acid treated light petroleum distillates, CAS # 64742-14-9, (Xn – R65) – 10 to 15%.

3 Hazards identification

This product is not classified as hazardous according to EU labelling criteria.
This product may be harmful if swallowed, causing lung damage, although this is not considered likely due to its viscosity.

4 First-aid measures

**Never give fluids if patient is unconscious or having convulsions.
Take this data sheet with patient if transported to hospital.**

Inhalation

Move to fresh air if effects occur. Consult a doctor.

Skin contact

Wash off with clean water, using soap if available

Eye Contact

Flush eyes with plenty of clean water. If irritation persists, consult a doctor.

Ingestion

If swallowed, seek **immediate** medical attention. Do not induce vomiting.

Note to Physician

No specific antidote. Give supportive care. Treatment should be based on judgment of the physician in response to reactions of the patient. Because product contains hydrocarbon solvents, chemical pneumonitis may be caused if product has been aspirated into lungs.

5 Fire-fighting measures

This product is not classified as flammable. If involved in a fire, use extinguishing media and protective equipment that is appropriate for surrounding fire conditions.

6 Accidental release measures

Clean up spillages using any convenient absorbent, such as rags, paper towel, sand, sawdust, etc. This product may make the floor slippery – Take Care.

7 Handling and storage

This product should be handled and used according to the instructions given on the container and any associated literature. For user comfort it is recommended that good natural ventilation is available during use. Store out of the reach of children. To prevent deterioration in product quality protect from extremes of temperature.

8 Exposure controls/personal protection

If used in conditions of poor ventilation, observe the recommended exposure limit.
If you have sensitive skin, wear protective rubber or polythene gloves.
Use eye protection if you think there is a risk of splashing into eyes.

9 Physical and chemical properties

Appearance:	Thick liquid
Colour:	White
Odour:	Sweet
Boiling Point:	>199C
Freezing point:	N/A
Specific Gravity:	1.00
pH	9.0
Water Solubility:	Appreciable
Flash Point:	>94 C
Viscosity at 25 C:	Greater than 30 sec flow time in 3 mm ISO cup.

10 Stability and reactivity

Material is stable and non-reactive.

11 Toxicological information

This product has not been subjected to testing on animals.
Information given is based on knowledge of the raw materials and experience in use.
Prolonged contact with the product may cause skin and eye irritation.
Prolonged or intentional exposure to high concentrations may irritate the respiratory tract.
Swallowing the product will cause internal distress.
Aspiration of the product into the lungs may cause chemical pneumonitis, but such aspiration is thought to be unlikely because of its viscosity.

12 Ecological information

No specific ecological information is available.

13 Disposal considerations

Dispose of in accordance with current laws and regulations. Consult your refuse disposal contractor for local advice.

14 Transport information

Not classified as hazardous for any mode of transport.

15 Regulatory information

This product is not classified as hazardous.

16 Other information

This product is only to be used for car care, in strict accordance with the usage instructions given.
